ANSU KUMAR R

Software Developer | Backend

Erode, India | +91 81243 37117 | ansukumar5207@gmail.com | linkedin.com/in/ansu-kumar-r | github.com/AnsuKumar05

PROFESSIONAL SUMMARY

Software Developer with 3 months of hands-on experience building and maintaining web applications using **C#, .NET, JavaScript and React.js**. Experienced in developing application features, working with databases, debugging issues, and contributing to existing codebases. Strong understanding of software development fundamentals with a focus on writing reliable code and delivering practical solutions.

TECHNICAL SKILLS

- **Programming Languages:** C#, Python, Java, JavaScript, React.js
- **Backend:** .NET, ASP.NET Core, Web API, REST APIs
- **Database**: PostgreSQL, MongoDB, SQL
- **Tools & Platforms:** Git, GitHub, Visual Studio, Visual Studio Code, Postman, Swagger, Render

PROFESSIONAL EXPERIENCE

Software Developer — *NavaNala Technologies Private Limited* | *August 2026 – Present*

- Developed and maintained application features based on project requirements.
- Implemented new functionality and enhanced existing modules across the application.
- Developed and integrated APIs to support application features and data flow.
- Worked on frontend functionality and connected user-facing features with backend services.
- Implemented authentication, authorization, and role-based access for different application users.
- Debugged issues, tested implemented features, and fixed functionality based on development requirements.
- Collaborated with the development team to understand requirements and deliver assigned features.

KEY PROJECTS

Vendor Management System — Web Application *(C#, React, PostgreSQL)*

- Developed and maintained backend functionality for vendor management.
- Implemented APIs and database integration for vendor-related operations.
- Worked with entity relationships, foreign keys, and data models for domestic and overseas vendors.
- Integrated backend APIs with the existing frontend based on project requirements.

Task Management System — Web Application *(C#, React, PostgreSQL)*

- Implemented **Create, Read, Update, and Delete (CRUD)** operations.
- Created API endpoints, models, repositories, and services for managing application data.
- Integrated APIs with the database and tested functionality using API testing tools

.

AI Stock Mind — **Stock Prediction Platform** (*Python, React, MongoDB)*

- Developed a platform for stock price prediction and forecasting.
- Created a user-friendly dashboard for uploading and viewing stock data.
- Added API integration for tracking stock trends and presenting prediction results.

EDUCATION

B.E. in Computer Engineering -Vidyaa Vikas College of Engineering and Technology | 2026- 2029 (Present)
Diploma in Computer Engineering - K.S. Rangasamy Institute of Technology | 2023–2026 | CGPA**:** 9.84

CERTIFICATIONS

- Software Development Internship — Cognifyz Technologies
